

# Virtual Private Network (VPN) Service

*Network Services/Open Systems*

*May, 2019*

## Rate

Monthly, per account\*: \$13.00

*\*Use of the State's VPN infrastructure currently is included in the Network Device Fee for State Employees and on-site contractors who work in buildings on the State's Local Area Network.*

## General Overview

The Office of the CIO (OCIO) VPN solution provides secure and controlled remote access from devices that connect from outside of the State of Nebraska network to a desktop, server or device inside the State of Nebraska network to employees, contractors, vendors and any other agent granted remote access privileges.

## Service Details

### The service includes:

- Access to the OCIO hosted VPN solution and required licenses for a single named user
- Redundant appliances with a high degree of availability for 24 X 7 X 365 remote access to State resources
- Access Rule configuration and management
- VPN security group management
- VPN user account management

### The service does not include:

- Support of client (end user) devices that are not related to the health of the VPN infrastructure. There will be a Time and Material rate for assistance in troubleshooting end user devices.
- Any work not explicitly listed in this section as included in the service will be billed at the published Time and Materials Staff Rate

## Roles and Responsibilities

The OCIO is responsible for the management and configuration of the VPN infrastructure and support groups.

The customer is responsible to provide agency-specific Access Rules and clearly define requirements to the OCIO staff for configuration. Computers connecting to State resources must contain an anti-virus program with current signatures and most current security patches. Remote access users are responsible for ALL actions incurred during their session in accordance with all State of Nebraska and agency standards and policies.
