

Webex Meetings

Network Services/Open Systems

Updated January 2020

Rate

\$5 per month, per account (all hosts must have an account). The Webex Suite is included in this price.

General Overview

Webex Meetings is an Internet, cloud-based web conferencing and collaboration service. Webex Suite offers Meeting Center for face-to-face meetings; Event Center to hold events and webinars; Training Center for organizations that offer online training or courses; and Support Center to provide all customers with remote support. Unlimited use of these centers is included in the monthly rate.

Service Details

Service can be provided to customers using desktop, laptop, tablet or cell phone. Webex Meetings may be used anywhere an Internet connection is available.

The service includes:

- Up to 1,000 participants per hosted event
- Meeting Center for face-to-face meetings
- Training Center for online training
- Event Center for events and webinars
- Access to Support Center for remote support
- Online recordings of events for future review and distribution
- Internet video conferencing
- Collaboration tools such as screen sharing, text chat, session recording and more
- Video endpoint (codec) participation (bridging charges may apply)
- Provisioning, training, and remote support provided with account
- Secured and encrypted service
- Does not capture content in conjunction with these services other than if the host records the session.
- The host has the ability to download the recording and remove it from Webex Meetings.
- Webex Premium:
 - Up to 25 participants in a video call (all users must have Webex)
 - Persistent meetings, IM's and video calls across your devices in real time

The service does not include:

- User equipment such as personal computers or mobile devices and internet services
- Cameras and microphones

Webex Meetings

Roles and Responsibilities

A Webex Meetings “Host” account permits that host to originate a Webex event (meeting / training / support) non-concurrently for up to 1,000 participants.

The host is responsible for ensuring the security of their account. Sharing account credentials is prohibited by the State Acceptable Use Policy. During any given meeting, the role of “host” and “presenter” may be reassigned to meeting participants after the meeting has been created and started by originating host account thereby granting control of that single event to other than the originator.

The host is responsible for any event recordings generated using the service. Recordings may be up to 10 gigabytes in size (or 10 gigabytes in total storage for multiple events). If the recording contains protected/privileged information, the host is responsible to ensure reasonable data protection and distribution in accordance with state data security policies.

Recordings made with this service will be stored temporarily in the private cloud, unless otherwise specified. Files will be deleted after 30 days. Documents required to be kept longer than 30 days should be stored on agency secured storage and removed from Webex Meetings.

Requesting Service

Submit a ticket via the Service Portal:

<https://serviceportal.ne.gov/ServiceCatalog/RequestOffering/a7e2e32d-51e9-e352-f5cf-1ccb9f5af0bb.ef0bff83-bd91-514f-0e82-6af879fbe927>

Service Expectations, Hours, Availability and Reliability

Service is available 24 x 7. Service conditions may depend on Internet connectivity and cannot be guaranteed. Service is hosted from the Internet (cloud-based service) and is expected to be available at all times.

Support issues will be handled by the Open Systems video staff in conjunction with the OCIO service desk during state business hours. After hours, customer can contact Cisco support.

Online experience may vary depending on network/Internet conditions at any given location. Service is “best effort” delivery and cannot be guaranteed. Network connectivity/performance troubleshooting is limited to State of Nebraska network coverage only.

Mitigation:

- When using video conferencing, it is recommended to connect to the State network from a State resource
- Avoid using cellular data, public Wi-Fi or other publicly shared/congested Internet connectivity

Webex Meetings

Cost and Billing Information

The Office of the CIO uses Billing Accounts, Job Codes and Work Order numbers for authorizing work and tracking costs for specific projects. The customer may designate which job code and work order number to use or request a new job code and work order number. Contact the Office of the CIO for assistance with developing an accounting structure that meets the needs of the organization.
