

July 2017 IT Consolidation Update

All employees impacted by the Phase 3 efforts have been notified. The same process was followed as in Phase 1 and Phase 2 where each Agency Director was contacted by Ed Toner. Once that notification was made, each Agency HR department was contacted by Serenity Kinney.

Joe Homan, Phase 3 Manager, along with the appropriate OCIO staff, are meeting with the impacted employees to answer any questions they might have. Once those meetings are completed, more in-depth discovery will be done directly with the employees and their supervisors.

We continue to work on defining the service areas within Nebraska.

As with Phase 1 and Phase 2, the organization chart will be defined at a later time.

As a reminder, support for end users continues the way it is today within your Agency. Moving forward if your Agency needs assistance, please feel free to reach out and we will assist as best we can on an enterprise level.
