

Motorola Equipment Delivery Delay

Due to manufacturer delays, Motorola equipment is not currently available. Current delivery to the SRS is scheduled for the end of April. All March classes have been canceled due to this delivery issue. This may also affect the April 8th and 9th training sessions in Dixon and O'Neill. Updates will continue via the SRS VFD Radio Grant newsletter email and [the SRS website](#).

As you were registered for March training dates, you will need to register for a different date when they become available. We will reschedule all the canceled sessions when equipment becomes available. The current training schedule is shown below. Further registrations for training won't be possible until we have received enough equipment to be able to fulfill the orders.

Some radios may be delivered in late April. Because of this, we are doing our best to secure equipment delivery for the Gering, Bridgeport, and Hershey training dates on April 15th, 16th, and 17th respectively. These sessions are dependent on equipment delivery.

Updated Training Schedule
